NEW MEXICO STATE UNIVERSITY

This cumulative author index was developed as a service for the readership of *Career Development For Exceptional Individuals*. It was prepared as a resource for scholars wishing to access the 323 articles published in the first 18 volumes of this journal. The format of this index was developed to be used as a cross-reference of all authors to each citation. This indexing system will be more user friendly for literature searches. It is our intent that this bibliographic index will be of help to those of you wishing to access trends, issues, and research on education and training in career development and transition for exceptional individuals.
